

Completed Proposed Website for a Selected Business or Company

Homepage

The website's landing page establishes Crab King's brand and the Filipino identity in seafood. It has a distinctive hero section with a headline and call-to-action button that invites a user to enter the site and explore. The primary aspect is brand presentation and navigation. The intention is to get the viewer's attention and lead them into the offerings of the restaurant.

Feature Page

The feature page emphasizes the story, mission, and distinct attributes of Crab King. It focuses on the restaurant's roots in the Filipino ethnic community, internationally inspired flavors, and community-first service. The main feature of the story is the storytelling component to build an emotional connection and trust. The feature page serves to showcase the unique aspects of the restaurant to help highlight what makes Crab King stand out from its competitors.

Our Signature Crab Experience

Discover what makes our crab dishes truly special

The Crab King Difference

At Crab King, we've perfected the art of preparing crab dishes through years of experience and a deep respect for traditional cooking methods. Our signature approach combines:

- Only using live crabs for maximum freshness
- A secret blend of 12 herbs and spices
- Traditional Filipino cooking techniques
- Modern presentation and service

The result is a crab-dining experience unlike any other in Angeles City - perfectly cooked, bursting with flavor, and served with our signature grills, butter sauce.

Our Premium Process

From ocean to plate - our commitment to quality at every step.

Fresh Catch

Daily delivery from local fishermen

Quality Check

Rigorous inspection for freshness

Perfect Timing

Precise cooking for ideal texture

Family Recipe

Secret spice blend and preparation

Local Sourcing

We partner with local fishermen in Subic and Marikina to get the freshest catch daily. Our crabs are caught using sustainable methods and transported live to our kitchen.

Quality Standards

Every crab must pass our 5-point inspection: live, responsive, clean shell, proper weight, clean smell, and bright color. Only about 50% of deliveries meet our strict standards.

Perfect Timing

Our chefs have perfected the exact cooking time for each crab size - 8 minutes for small, 10 for medium, and 12 for large. This ensures tender, juicy meat every time.

Community Connection

Crab King is more than a restaurant - we support local fishermen, provide jobs, and give back to the community through events and partnerships.

Chef's Expertise

Our seasoned chefs combine traditional Filipino cooking with modern techniques, bringing out the best flavors of every seafood dish.

Dining Experience

From cozy intimacy to attentive service, we make sure every guest enjoys a warm, inviting atmosphere perfect for family gatherings and celebrations.

Our Signature Chili Crab

Our signature Chili Crab - a blend of succulent crab that has become a true crowd favorite.

Preparation:

- Fresh live crabs selected for the perfect balance of meat and flavor
- Crabs cleaned and prepared just before cooking
- Stir-fried in a rich, savory, and spicy chili tomato sauce
- Infused with garlic, ginger, and a touch of sweet heat
- Served hot with complimentary (limited) to soak up the sauce

[Admin Page](#)

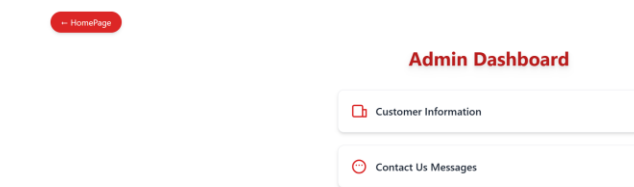

Product Page

This webpage features the entire menu consisting of seafood entrees and promotions offered at Crab King. This is the only page that displays the images, names and prices organized in a formatting style. The key aspect of this page is its visual listing of food selections, which will allow customer to search through dishes easily. This page's purpose is to communicate to customers and pique their interest to try or order a certain food product.

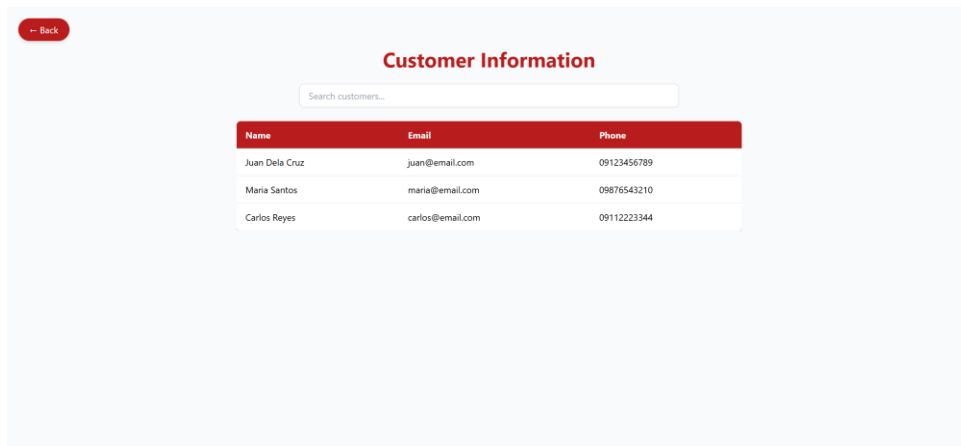

Admin Page

Crab King's Admin Dashboard is a page for authorized users to manage important business operations. The user can easily access Customer Information to view information and manage important aspects of customer information, and the Contact Us Messages, which includes messages from users that visited the website that can be read, and responded to. The Admin Dashboard provides a organized, learning user-friendly experience with hover effect features, and a background photo that follows the restaurants theme. The connectivity of The Admin Dashboard would provide a single page for administrators to complete necessary reporting.

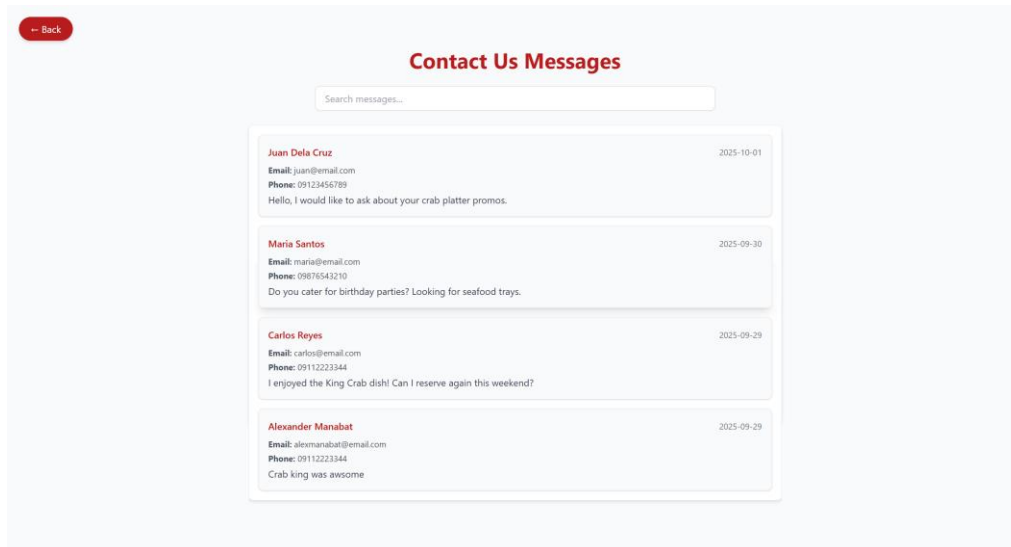

Customer Information Page

The Customer Information section for Crab King's administrative interface showcases a data table representing the customers' names, email addresses, and phone numbers. The administrators are able to filter, and search customers quickly using the real-time search bar located above the customers' table. The page will also include hover effects on the data rows, allowing for quicker readability and navigation of customers.

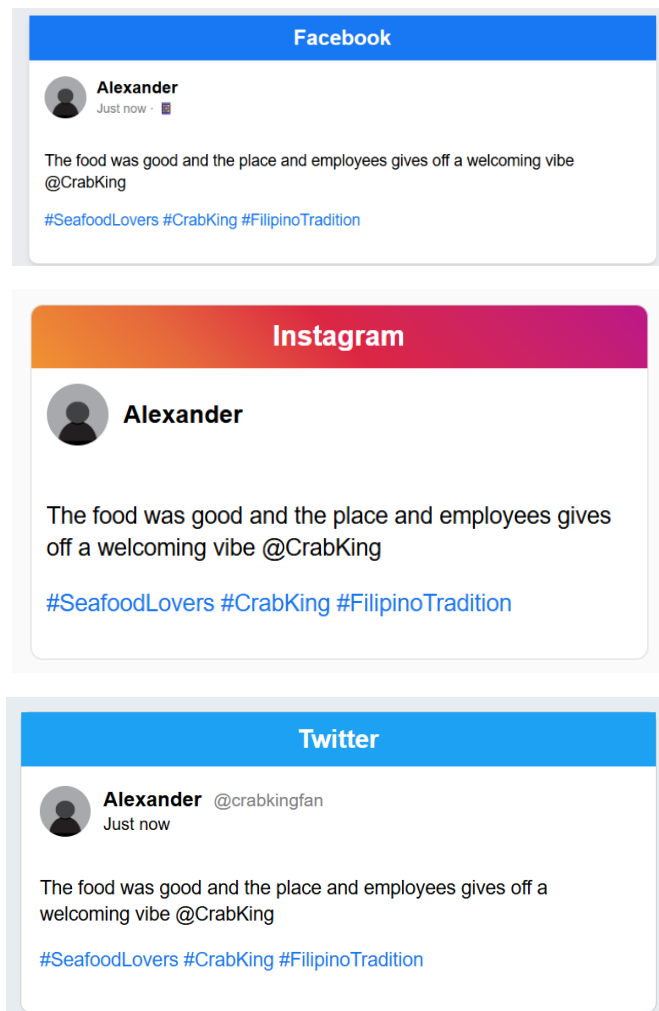

Customer Messages Page

This is the Contact Us Messages page for Crab King's admin panel, which displays messages sent by customers including their name, email, phone, and text content in their messages. Admins will be able to search through and filter messages in real-time using the search bar. Each message is also displayed in a scrollable card layout with hover effects to easily read and navigate.

Social Media Marketing Pages

The Social Media Marketing Pages subsection is set up to oversee and market Crab King through various digital channels. These channels include Facebook, Twitter, Instagram, and Email, in which the team is able to post updates, promotions, engage with followers, and monitor customer interactions. This section assists in centralizing its marketing efforts, increasing brand awareness, and driving customer engagement via social media and email marketing.
